

The Indian

1964

THE INDIAN

Washington High School

Lake Charles, Louisiana

Dedication

MISS EDITH JOHNSON

The age of "individualism" began in the sixteenth century. It was a significant age in that the value of "man" was beginning to be recognized. Today sees this recognition at a far more ripened stage; for nothing surpasses the individual, especially he who has set as his goal in life the advancement of all humanity.

It is an honor to dedicate "The Indian" to one who has worked untiringly in our school and the community. It is quite evident that she possesses those inner qualities that impel her to the calling of a better school, a better society, a better world!

May God grant her the power and courage to attain greater goals in life. May the spark of ambition and human concern light the path that all of our girls and boys may travel and find a good life.

Our Principal

MRS. J. D. CLIFTON

Principal's Message

The year 1963-64 has brought one success after another to our beloved Washington. Again, we salute out "Yearbook Committee." We stand ever ready to give praise to the superb job they do for us. Their untiring efforts are so very much appreciated.

The faculty and our students are also to be congratulated. Last but not least we congratulate our patrons who constantly stand behind us in all of our plans. Let us hope for our Alma Mater greater achievements in the years ahead. As this class departs-

"I shall not cry Return! Return!
Nor weep my years away;
But just as long as sun sets burn,
And dawns make no delay,
I shall be lonesome-
I shall miss you,
Your hands, your voices, your smiles.
'Just You'."

The Principal

Mrs. Jessie D. Clifton

Assistant Principal's Message

MR. R. J. MOORE

A MESSAGE FROM THE ASSISTANT PRINCIPAL

"Civilization is a race between education and catastrophe," says H. G. Wells. This is a philosophy well worth its thought and the time necessitated to prove its sincerity. In this age of enlightenment, if our society does not accelerate its pace, we will be lost in the forgotten horizons of time.

As an institution of learning, it is our ultimate goal to add our "push" to the wheel that will move us forever onward to a brighter day fulfilled by individual perfection and social progress.

May "The Indian" serve as a milepost in the history of Washington High School which will evidence our sincere endeavor to blot out the darkness of ignorance and illuminate the light of learning.

Assistant Principal

The President Speaks

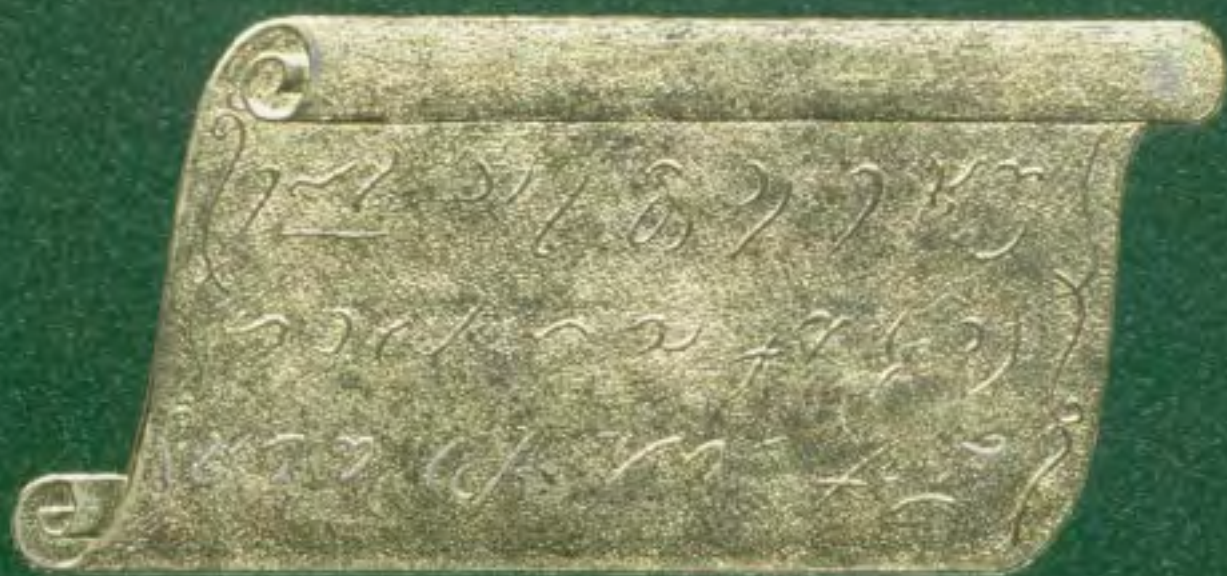

MARSHALL GUILLORY
President of SCA

When we as students associate ourselves with the things that may benefit us most, there is little chance that what we do will be in vain. For the mere experience of a worthy effort, be it victory or defeat, will pay for itself in wisdom.

We learn by doing and should indulge in as many meaningful experiences as possible. We should let our every endeavor be to conquer the unknown, which is destined to be known. Let us always bear in mind that, "The true reward of participation comes through self-satisfaction." When one is truly satisfied with himself, there is little that can be done to prevent him from living a truly great life.

President of SCA
Marshall Guillory

The Indian
