FOREWORD

We, the Seniors of 1953-54, are indeed proud to present Sevier's first yearbook, THE EAGLE.

In short, the reason for publishing THE EAGLE is to inspire those that come after us to successfully record the events that mirror for years to come the many profitable activities and happy hours spent at our dear Alma Mater.

This book is not perfect by far, but it represents our tangible expression of love and loyalty for our dear school.

Principal's Message

SENIORS OF SEVIER:

I congratulate you on the publication of this annual and the many other achievements that have been yours this school year.

The youth of this community should be ever mindful of the many opportunities which are theirs in a democratic world. The school plays a major part in exploring these opportunities and achieving the goals to which we aspire.

My wish for you is that your success as a student may in some measure prepare you for a life of service and value to your community. As you turn the pages of your annual and remember with pride the achievements of your school days, so may you look back each year of your future on other tasks equally well done.
