DEDICATION

The Senior Class of 1965 of Reuben McCall High School is proud to dedicate the 1965 Dragon to an outstanding teacher of the Reuben McCall High School staff, Mr. Frenchy P. Truewell.

Mr. Truewell, who received his B.A. degree from Dillard University and certification in Social Studies from Alcorn College, has done further study at Hampton Institute, Southern and Xavier Universities. He will receive his M.A. degree in August of 1965 from Hampton Institute.

Mr. Truewell is a product of Reuben McCall High School (Madison Parish Training School) where he has taught in the Social Studies Department for twelve years.

We are grateful to him for his guidance, and interest given in our behalf in the field of education. All of his efforts will aid us in becoming worthy citizens in the world of tomorrow.

THE PRINCIPAL'S MESSAGE

Educational trends for the space age, created by the launching of "Sputnik" and other satellites, have brought nation-wide attention to educational needs; therefore, it becomes the responsibility of the school to meet these needs. As the students' needs vary, it becomes the teacher's responsibility to be sympathetic, understanding, well-versed in subject matter, know the psychology of learning as it relates to adolescents, and be able to plan and conduct activities and programs that help to extend the interest of pupils in such a manner that healthy well-rounded personalities are developed.

In the industrial world, antiquated buildings and machines cannot produce competitively with the modern trends of automation in transforming raw materials into finished products. This is also true in education. Excellent modern physical facilities, personnel, and space are needed if our graduates are to live wholesomely in, contribute to, and benefit from our society. The public must realize that the best must be available in order to best develop our youth.
