ADMINISTRATION

GREETINGS FROM THE PRINCIPAL

To the Iberville High School Family, Greetings:

Let my first words be those of gratitude to all of you for your fine cooperation in making this our third yearbook, one of the finest.

To the Yearbook Staff, you have shown great artistry and sensitivity to people and situations. You can take pride in the fact that your faithful performance is hailed by all Ibervillities as a task well done.

I can hardly realize that four years have passed since our last yearbook was published. The intervening years have been full and difficult.

The theme of this year's yearbook is "THIS IS THE YEAR." To the class of '62, this theme may have a solemn and meritorious meaning. I share with you in this distinction, free of vanity.

This is the year, 1961-62, that Iberville High School was designated as a four year high school, Grades 9-12, only.

We have distinguished ourselves in athletics, improved greatly our academic program, and at the present, show great promise in coming events.

In retrospect, space does not permit me to review the many other accomplishments of the sons and daughters of "I.H.S." in the years between.

To the class of '62, undergraduates, faculty, and staff, may God speed you. May you find an interesting and satisfying lifework in a World at peace.

The Principal

B.A., M.A., Professional Diploma, Further Studies

DEDICATION

Principal Wendell Orville Williams was born and reared in the city of Plaquemine, Louisiana. His initial education had its origin in this city at Iberville Parish School. After his sophomore year, relationship with education in Iberville parish tentatively terminated with his enrolling at McDonough #35 High School in New Orleans, Louisiana. Graduation from this institution was accompanied with high honors. In pursuit of higher education, he entered Southern University in Baton Rouge, Louisiana, graduating with a B.A. degree.

Employment in Iberville parish had its inception with Principal Williams being employed in the capacity of an English instructor and assistant principal in 1935. The year 1942 found him advanced to the position of principal of the elementary and high school in Plaquemine.

In 1951, he received his Masters Of Arts degree from Xavier University in New Orleans, Louisiana. Columbia University in New York City is the site of the Doctorial program in which he is presently enrolled.

He holds membership in the Kappa Alpha Psi Fraternity, the national, state and local educational associations, the Organization of Counselors at Columbia University, the Sixth District Principals' Association and The National Association of Secondary School Principals.

Industrious affiliation with school-related organizations concerned with furthering the cause of education is highlighted with the acceptance of posts of leadership.

Untiring years of service as a classroom teacher for seven years and twenty years of service as a principal have molded a great educator.

Quite distinctive of Principal Williams is the fact that he has a twin brother. His brother Winfred Woodrow Williams is affiliated with the Mathematics Department at Southern University.

The subject in the adjacent picture is our principal's jolie femme, Mrs. Cora Cotton Williams. She is also presently employed in the Iberville parish public school system in elementary education.

With all sincere thought, we the graduating class of 1962 endeavor to dedicate to our most beloved and trustworthy principal our diligent efforts depicted in this composite.

62's INTROSPECT

On the road of success we are troding;
Our years at Iberville have been most rewarding.

Through struggle to reach our goal,
We shall strive for it brave and bold.

Diligent workers are we, the class of '62;
For we know the future holds prosperity that is due.

The stage is now set for that lengthy run;
Initiative is the factor that will achieve our just return.

We are sad; we are glad. There is plenty to fear
Gone are the years at Iberville.

We won't give up. We are not a descending star;
We just play upon our courage, and it gets us far.

Now to thee, Dear Iberville, your praises we sing
With thy good remembered above other things.

We would like to stay and call you home,
But to progress, we must move on.

Through bitterness and strife our efforts will be hard
To bring glory to our Alma Mater our country and our God.

Now we are leaving, but not all alone;
Fear is being conquered to clear the way home.

It is a long climb upward; we'll proceed with zest,
And those at the top will help the rest.

We won't give up. Our star is bright;
We are depending on our courage to win the fight.

We've worked hard through bitterness and strife
To follow those examples that will mold our life.
