"Each child will make his own contribution, if given the opportunity."

Foreword

We, the faculty of the George Washington Carver Senior High School, dedicate ourselves to the principle of **INTELLIGENT SELF-DIRECTION** on the part of each and every "Carver student" enrolled in this Institution. Our chief concern, therefore, is the **QUALITY OF BEHAVIOR**. Discipline, to us as a faculty, has its origin and its stem deeply rooted in the term **DISCIPLE** (one who adopts the standards and values of another person who is admired and respected). Discipline, to each "Carverite" connotes voluntary behavior, a type of internal self-control, self-reliance, self-assurance, intelligent self-direction and the pursuance of socially accepted goals. (To us as a faculty, discipline does not necessarily mean punishment, nor does it denote the various techniques and devices by which a teacher maintains an orderly situation.)

In training for discipline, at Carver Senior High School, the emphasis upon the **RIGHT DIRECTION** in which a student moves is as important to his development as is either the distance which he moves, or the speed in which he exemplifies the philosophy of the school, as itemized below:

- 1) Every student is useful
- 2) Every student is unique
- 3) Every student can make a contribution at his own developmental level, interest and needs
- 4) "Every student is an individual"
- 5) Every student is "a special creation"
- 6) Every student seeks

a. recognition	d. success
b. response	e. security
c. satisfaction	f. "a feeling of belonging."

From such a philosophy, when put into practice, should involve the **CULTIVATION OF A SET OF VALUES** which should serve as a **GUIDE TO GOOD CONDUCT** and intelligent self-direction. Such a philosophy

- 1) recognizes the importance of the individual rather than the subject **AS THE CENTER OF THE SCHOOL**,
- 2) emphasizes the **DEVELOPMENT OF A WHOLESOME PERSONALITY** rather than the mere passing of examinations,
- 3) aims toward the **PREPARATION OF THE GOOD CITIZEN** rather than the mere preparation for college, and
- 4) centers around the **INQUIRY IMPULSE**, the **EXPRESSIVE IMPULSE**, the **CONSTRUCTIVE IMPULSE** and the **CULTURAL IMPULSE**.

In essence, ours is a philosophy which enables each student to be responsible for his own intelligent conduct and his own intelligent decisions. It is controlled from within the individual himself and allows the individual an opportunity to make the **RIGHT DECISION** at the **RIGHT TIME**, in the **RIGHT ATMOSPHERE**. The strength of the inner-self, or the "inner-authority" is enhanced because it is not commanded or forced. The resulting behavior pattern is, therefore, largely a product of the individual student's **WHOLESOME INTERACTION WITH HIS TOTAL ENVIRONMENT**.

In Memoriam

This yearbook is dedicated to the memory and work of Mrs. Alberta Jesse Brown, of the George Washington Carver Senior High School Faculty, who died November 1, 1961.

ALBERTA J. BROWN

"Always remember those who have befriended you."

The George Washington Carver Senior High School Family, both faculty and students, mourn the passing of its illustrious co-worker and instructor. Her presence around Carver Senior High School will be missed, but we rejoice in the thought of having been her associates. To have known her was to love her and we feel our lives have been enriched because she passed this way.

Congratulations! This is certainly an inadequate expression of appreciation for the young people who helped to make our Yearbook possible. The task they have undertaken to produce the 1961-1962 Yearbook has proved to be most "Herculean" and DIFFICULT. However, the members of the staff busted themselves and finally emerged with one of the finest Yearbook productions possible.

There has never been a more conscientious group of young people working together for so worthy a purpose. Those of you who receive a copy of the 1961-1962 Yearbook owe much to the Editor, the Assistant Editors, and the Yearbook Staff.

In addition to the efforts of our Staff, we salute Mr. Becnel, Mrs. Benjamin, Miss Gaspard, Mrs. Kennedy and Mrs. Crowe. We cannot praise and thank sufficiently all of the teachers and students who helped make this subject a reality.

Gratefully,

BETTY BURRELL

The Principal at Work

MRS. ALICE BENJAMIN
Assistant Principal

Civilization and progress depend upon two factors - the generation to be and the generation of the present. It can be said that man's future is determined by the child. If this be true then the child as an end product must be determined by us, particularly those of us who are in the business of education. Therefore here at Carver, we think first, of the child as the man of tomorrow and secondary, of the type of world we would like for him to shape for his posterity. With these two things in mind we constantly keep before us his usefulness as a human being and try to develop him from this point.

The Department of Guidance

To assist the school in fulfilling its function of endeavoring to develop youths into productive members of society, the guidance program is organized. Its essential emphasis is to aid students to recognize and evaluate their assets and limitations and in the light of this to become more self-directive in making wise choices and decisions. These concern themselves with vocational, educational, social, and personal adjustments. Since the guidance program operates on the assumption that individuals need to strive for maximum personal development, it is pupil centered and requires much information about individual and society.

When I consider how my light is spent
Ere half my days in this dark world and wide
And that one talent which is death to hide
Lodged with me useless, though my soul more bent -
To serve therewith my Maker, and present
My true account, lest he returning chide,
"Doth God exact day - labour, light denied?"
I fondly ask but patience to prevent
That murmur, soon replies, "God doth not need
Either man's work or his own gifts. Who best
Bear his mild yoke, they serve him best. His state
Is kingly: thousands at his bidding speed,
And post o'er land and ocean without rest,
They also serve who only stand and wait."

JOHN MILTON - (On His Blindness)

Thus, you may have come to the END.
However this END is really your beginning.
As you awake on the morrow, you will find
yourself in a world which is entirely new.
If you are ready, you should be able to
challenge everything in this new world.

Congratulations and Bon Voyage -
