SENIORS

## *Senior Class History*

Fresh and eager as all freshmen, we, a class of fifty-five students, started our high school career in the fall of 1948. We chose as our class officers Sadie Belle Marshall, president, Annie Lee Mouton, vice president; and Muriel Williams, as secretary. Even as freshmen we were enthusiastic athletes, playing on the school's basketball teams. That year our girl's team won the district championship.

The sophomore year found our number somewhat diminished, but we carried on enjoying our journeys into the realms of science and art.

When we began the year as upperclassmen, we learned that one of our classmates, Kenneth Malveaux, had entered the seminary to begin his studies for the priesthood. Another had joined the armed forces. We were mindful of the fact that this was the year to sponsor the junior-senior prom. We were urged by our class officers to raise sufficient money to present the best band ever had. How proud we were to be the first class to have the privilege of having this great event in our new gymnasium.

Two of our members, Del Marie Noel and Betty Anne Collins wrote prize winning poems, which were published in a poetry anthology. Another first was the homecoming game in which Betty Anne reigned as the first homecoming queen. Again our basketball teams were district champions. Both boys and girls were happy to display their trophies.

At last we have come to the long awaited senior year. Chosen for our class leaders were Peter Joseph, president; Clyde Coco, vice president; Maudy Godeaux, secretary, and Del Marie Noel, treasurer.

Honors came to our class early in the season. Peggy Pecot was chosen princess in the annual Dairy Festival. Annie Lee Mouton had the coveted honor of reigning as Queen Yamba in the Yambilee Festival. Our homecoming queen was Lillian Frank, a new member of the class, and to climax this array of queens, Susie Sterling was queen of hearts in the Valentine party.

During our high school days we have had our moments of defeat and triumph. We have learned many things of both intellectual and practical value, and in the days still far ahead we shall look back with joy to the days spent here at H. R. I.
