

LOWERY HIGH SCHOOL

DONALDSONVILLE, LOUISIANA

1951

**"TRAIN US TO DO THE THINGS WE SHOULD DO WHILE
WE ARE YOUNG"**

Our children are only ourselves growing up. Their needs are very much similar to ours. We owe them all that should come from a good home and community. It is the responsibility of the community people as well as the school to see that each child has an opportunity to develop to the fullest extent of his abilities.

"Children are an heritage of the Lord"

Psalms 127:3

Dear Patrons and School Officials:

Our children are the only means by which we pass on the human qualities of community life. We should become more concerned about such basic needs as health, recreation, education, nutrition, and all aspects of emotional development of our youth. Indeed, we are justly obligated to make life better for others in order to continue improvement in the American way of life.

We are happy to report that our school program has been a success this school year. The faculty and students wish to express their gratitude to you and the school officials for assisting us in this successful year of school work.

You may be interested to know that we have thirty-one (31) seniors in the graduating class—twelve (12) boys and nineteen (19) girls.

You are invited and urged to come to the school and talk with us about the growth and development of your children.

Very truly yours,

E. C. LAND, Principal

HOME IMPROVEMENT PROJECT

New Farmers and New Homemakers of America

Home improvement as a phase of education is carried through by the classroom teacher jointly with the Agriculture and Home Economics departments. The classroom teacher, through home visitation, conferences with parents and pupils established the type of relationship that would make for desirable educational experiences.

HOME IMPROVEMENT PROJECT

New Farmers and New Homemakers of America

The total scope of this project included activities of the teachers, pupils, parents and owner of the plantation. In nature, this project offers a challenge to education and our community to become more concerned about the home conditions of a large group of our school children. We owe the patrons of these children some guidance.

LOWERY HIGH SCHOOL
