

Bossier Parish Training School

Presents

The 1952 Bossier Porker

FOREWORD

In its presentation of a school year the Bossier
Parker has attempted to display the students,
events and activities that have contributed to the
memories of those attending the Bossier Parish
Training School.

Dedication

In dedicating this, the 1952 Bossier Parker, to the late Prof. O. L. Mitchel and Mrs. C. A. Mitchel, we, the student body, faculty, and staff, hope to express our sincere appreciation and gratitude for their superb interest, understanding and supreme patience, their guidance and to so many students in their fields of endeavor through high school and college.

R. V. KERR
Superintendent

Greetings: As I review the 33 years of service as your Parish Superintendent of Education, I have a peculiar delight in the accomplishments that have come to this school. Your growth has been marvelous—from a one-room frame building, in which all of the grades were taught, to the present plant of six frame buildings and a value of approximately \$75,000.00. I salute you with a faculty of 17 able teachers, and a student body of over 500 students for the progress you have made.

May the publication of this yearbook be an incentive to greater achievements, in building worthwhile citizens and an investment in human development.

TED O. RUSHEON
Supervisor

To the students and faculty of the Bossier Parish Training School: It gives me great pleasure to express to you my appreciation for the co-operation and loyalty which you have extended to me these past two years. It is my sincere wish that each of you, through the tolerance and understanding which you gain here, go on to the fulfillment of a worthy and successful life.

LIDIA WALKER

Supervisor

To the Principal, members of the faculty, students, and friends of Bossier Parish Training School—Greetings:

I esteem Bossier Parish Training School more highly than any other institution of learning that it has been my privilege to attend.

As one of its first high school graduates, I was inspired, encouraged, and taught, how to surmount all obstacles, to seek ever for the higher things in life, and to get along with others.

I rejoice over the publication of our first issue of the yearbook; it is another milestone in the school's progress and achievement.

CLUREN J. COHN

Principal

Dear alumni and friends of Bossier Parish Training School:

The philosophy of every teacher of Bossier Parish Training School is to teach the total child, which endeavors to prepare useful citizens and future Negro leaders.

The purpose of our school is to make students intelligently sensitive to community problems, and through good academic and vocational instruction, to enable them to develop practical skills and knowledge to cope with present-day problems.

We at Bossier Parish Training School hope that this, our first Annual, depicting our activities, will linger in your hearts and minds for many years to come.
